Give Your Battery A Tune Up

TOTAL SUPPORT GUARANTEE

TSG PROGRAM

Purchase any Deka Industrial Battery from IBP and receive the following benefits to insure optimum performance.

Annual OSHA Compliance Inspection

Annual inspection of your battery room, covering over 19 OSHA regulations with a written summary of our findings and recommendations.

Annual Battery Inspection

Annual Inspection of your Deka battery, at your facility, with a written summary of our findings and recommendations.

Capacity Load Test

A capacity load test, performed at our facility, with a written evaluation and our recommendations. This is available during the battery's useful life.

Mid-Life Battery Tune-Up

Adjustment of your Deka battery's acid to the manufacturer's recommended specific gravity, at approximately the 30 month mark, this will help to ensure your battery will continue to run at its maximum capacity.

Power Care Level One

During your battery's mid-life tune-up we will perform our PowerCare Level One service.

Service Rental

Provide a 1/2 priced rental battery, if required, during any in-shop repairs performed on your Deka battery. **This rate applies as long as you need the battery.** All rentals subject to availability.

Spent (Junk) Battery Disposal

IBP will properly dispose of your scrap battery according to EPA guidelines. IBP will buy back your used batteries, call for details.

Total Support Guarantee

Note:

TSG not available on 5 or 7 plate batteries. In-bound and out-bound freight is the responsibility of the customer. Please call for a freight quote.

When making your industrial battery acquisition, why not purchase more than a fuel tank? Specify a Deka Industrial Battery from IBP and receive this **Total Support Guarantee**
