

Battery Reconditioning

888.813.5636 / IBPMIDWEST.COM

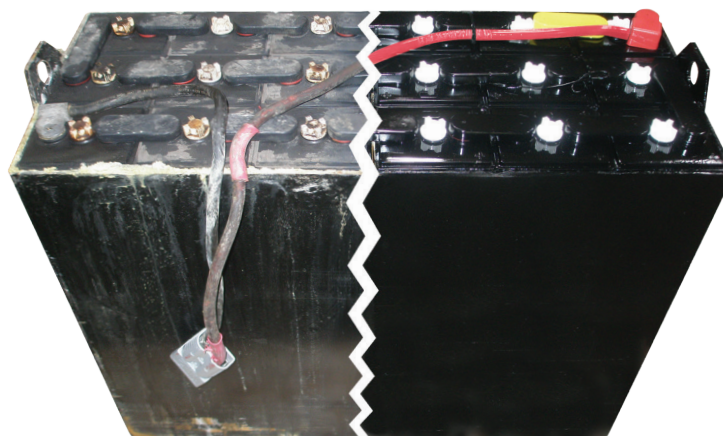

Are your batteries in need of a tune-up?

- Batteries not performing and no budget to replace them?
- Batteries only a few years old but not making it through a full shift?
- Have you ever had water or acid on your floor after charging?
- Are your batteries not lasting as long as budgeted?
- Do you have corrosion build-up on your batteries?
- Are your batteries being watered, cleaned and checked on a regular basis?
- Are your chargers properly matched to your batteries?
- Do you have costly lift truck electrical component repairs?
- Are your batteries OSHA compliant?

IBP can get your batteries back to performing at maximum potential

- Get 15+% increase in capacity/run time
- Extend the life of your batteries
- Helps eliminate costly lift truck electrical faults and repairs
- Tune-up your batteries at a fraction of the cost of new ones
- One year warranty on repairs
