Providing Power Solutions

Certified 
 **Power** 

OUR MISSION

TO EMPOWER OUR CUSTOMERS
WITH ENERGY SOLUTIONS THAT
KEEP THEIR WORLD MOVING

CERTIFIED POWER RENTAL BATTERIES

- Industry-leading Deka batteries < 3 years old
- On-site battery inspection each quarter, with immediate repair or replacement for batteries requiring attention
- Once a battery reaches 1,100 cycles or 3 years old, regardless of how long you've had it, we'll replace it with a newer Certified Power Rental Battery

CERTIFIED POWER USED BATTERIES

- Industry-leading Deka batteries 3 – 4 years old
- All batteries maintained exclusively by IBP for maximum performance and lifespan
- Performance evaluation report confirming 85 – 100% capacity
- 2-year warranty on all Certified Power Used Batteries

WE KNOW HOW DOWNTIME ADDS UP.

We also know there's a world of difference between a battery that runs and a battery that performs.

Now with our exclusive Certified Power Program, you'll take confidence in knowing that your batteries will always deliver comprehensive, high-capacity power for your electric forklift fleet.

“USED” DOESN'T ALWAYS MEAN “USABLE”

Our industry is unfortunately flooded with used batteries that are not worth your time. Many dealers attempt to recondition old batteries that were traded in due to age or poor performance. In most cases, these batteries should have been scrapped — certainly not rented or sold.

WE CARE FOR EVERY BATTERY

IBP's batteries are rented out for a maximum of three years, so you'll enjoy peak performance during the entire rental cycle. Rentals are retired into our Certified Power Used Fleet, where they'll receive rigorous maintenance to perform in lighter duty applications.

WE ONLY BUY THE BEST

All Deka batteries are purchased **new** from East Penn Manufacturing, recognized as the most hard-working batteries in the industry. Deka batteries maintain a high level of capacity longer than any other — and it's not even close.
