

No Matter What You Call It ...

CLASS III TRUCK
WALKIE RIDER
PALLET JACK
WALKIE

We have your perfect "Mate"

The best value equation for your battery needs.

No matter the application or the truck, Deka has the perfect battery for your Class III truck needs. We offer direct replacement products with on-board chargers with over 130 custom models available in multiple capacities from 155-510 AH. These products excel in multiple demanding applications such as heavy duty, high vibration and cold storage. In addition many can be used in Opportunity Charging and some are maintenance-free.

Gel-Mate® PowrMate® ChargeMate™

APPLICATION GUIDE

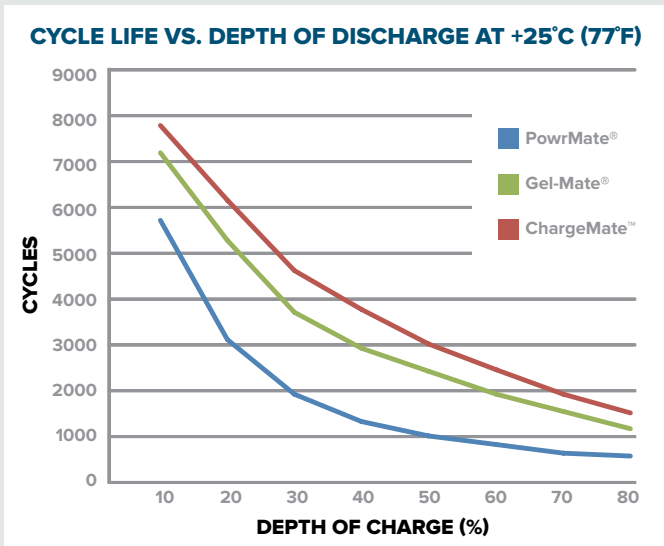

Battery Type	Application	Maintenance Free	High Vibration	Opportunity Charge	Freezing Temperatures / Cold Storage
PowrMate	Light Duty	X	X	X	X
ChargeMate	Medium		X	X	
Gel-Mate	Medium	X	X	X	X

Let Deka Be Your Matchmaker

All products are offered with an on-board charger to charge the battery without the added concern of equipment damage.

PERFORMANCE

QUICK REFERENCE TRUCK GUIDE

Compartment Size	Battery Family	Battery Model	Available Capacity
Less than 7.9"	ChargeMate	12-D85-5	170
	Gel-Mate	12-G75-5	150
	PowrMate	8GGC2	155
7.9" – 9.1"	ChargeMate	12-D85-7	255
	Gel-Mate	12-G75-7	225
	PowrMate	8GGC2	155
13.0" +	ChargeMate	12-D85-11	425
	Gel-Mate	12-G75-11	375
	PowrMate	N/A	N/A

POWRMATE

- Perfect for light duty applications (cold storage, delivery/route, back of store)
- Maintenance free sealed gel design saves time & expenses
- Gel design is extremely reliable in high vibration applications
- Low self-discharge (less than 2% per month) limiting deterioration during transport and storage
- Ideal for opportunity charging applications
- Sustainable solution (virtually 100% recyclable)

GEL-MATE

- Ideal for medium duty applications
- Maintenance free sealed gel design saves time & expenses
- Gel design is extremely reliable in high vibration applications
- Ideal for opportunity charging applications
- Sustainable solution (virtually 100% recyclable)

CHARGEMATE

- Ideal for medium to heavy duty applications
- Flooded technology
- Ideal for opportunity charging applications
- Sustainable solution (virtually 100% recyclable)
